

SAFETY & SUSTAINABILITY COMMITTEE

23 March 2026
12:00pm - 6:00 pm

Trihydro Offices
4650 Montgomery Rd, Ste 150
Cincinnati, Ohio 45212

ABOUT COMMITTEE

The Safety & Sustainability Committee provides a venue for OCTC members to share experiences regarding environmental, safety, health, security, and sustainability matters. The committee identifies best practices, lessons learned, and relevant trends for the purpose of reducing risk, advancing accident prevention programs, and developing sustainability programs to expand knowledge in chemical process and personal safety at member operating facilities. The committee supports the use of good science and public policy while promoting and serving member interests.

This event is free to attend for all OCTC members in good standing and our invited guests.

OVERVIEW

Learning Topics

- Emissions reduction
- Waste and water use
- Spill response
- IH Monitoring

Peer-to-Peer Interaction

- Networking lunch
- Post meeting gathering

See detailed agenda on next page.

Thank you to our generous hosts:

S&S Agenda - March 2026

Time	Topic	Speaker
11:30am	Registration Opens	
12:00pm	Networking lunch	
1:00pm	Call to Order Introductions Antitrust and Respect for People Policy Safety moment	Jack Spicuzza (Chair) Univar Solutions
1:15pm	Common Sense Sustainability Projects Common sense initiatives to reduce waste, reuse materials, and consider fleet emissions at the plant level.	Sukhjit Varaich Univar Solutions
2:00pm	The Good, The Bad, and the GIUE Lessons from facility response plan failures and OSRO readiness. Attendees will leave with actionable insights to enhance response capability, reduce legal and environmental risk, and better align with EPA's evolving expectations for spill response.	John R. West, PE CHMM PMP Cox-Colvin & Associates
2:40pm	Establishing an IH Monitoring Program Learn the basics of standing up an IH monitoring program from an industry peer. This session will discuss the ups and downs of implementing these changes at their plant.	Brent Goetz, Amanda Spencer Covestro
3:00pm	IH Monitoring Overview A certified industrial hygienist will provide an overview of key industrial hygiene techniques and equipment relevant to chemical manufacturing operations. This session is designed to help EHS managers evaluate current program maturity and identify opportunities to strengthen worker health protections at their facilities.	Jason Van Dyke, CIH PSARA Technologies
3:30pm	S&S Committee Adjourns	
4:30pm	Networking Reception Join committee members for food, drink, and casual networking at Gatherall Food Hall (2750 Park Avenue, Norwood, OH 45212).	
6:00pm	Event Concludes
